

Conco Systems Announces New Partnership with Serpaga, Inc.

November 22, 2013

Verona, PA—[Conco Systems, Inc.](#) is proud to announce their new partnership with Serpaga, Inc. in San Juan, Puerto Rico. While Serpaga's name is new to the power generation industry, they inherited many years of experience from Passco, Inc., their predecessor. Not only does Serpaga operate out of Passco's former facilities, but Serpaga also continued the partnership started between Passco and Conco several years ago. Now, Serpaga is a leader in providing tube and condenser cleaning products and services to the power generation industry in Puerto Rico. Conco Systems has extended a letter of exclusive representation to Serpaga so that Conco products and services will once again be available in Puerto Rico. Serpaga, Inc. will provide Conco Tube Cleaning, Leak Detection, and Eddy Current Testing. In addition, Serpaga will be offering new services like Condenser Cleanliness Inspections and Total Condenser Performance Audits to local power plants and the power authority company.

Founded in 1923, Conco is the world's leading provider of condenser and heat exchanger services to the power generation industry with offices located in the US, Europe, and Asia Pacific.
